Education

Bharati Vidyapeeth's College of Engineering, Navi Mumbai Aug 2024 – June 2028
B.E. in Information Technology GPA: 8.75/10
Relevant Coursework: Data Structures & Algorithms, DBMS, Web Technologies, Software Engineering

Experience

Head Graphic Designer & Programming Team Member 2025 – Present
Innovation & Robotics Lab

- Led design initiatives for technical events, creating high-impact posters, social media creatives, and branding assets
- Collaborated with development team to build and maintain web-based platforms for lab activities
- Contributed to UI/UX improvements, enhancing user engagement across internal tools
- Coordinated with cross-functional teams to deliver projects under tight deadlines

Web Development Intern 2026
ShadowFox

- Developed responsive web interfaces using modern frontend technologies
- Improved website performance and usability through optimized design practices
- Gained hands-on experience in real-world development workflows and debugging

Projects

Smart Campus Connect 2025
Next.js, TypeScript, Spring Boot, PostgreSQL

- Built a full-stack college event management platform supporting students, clubs, and administrators
- Implemented role-based dashboards for students, club heads, and admins with secure JWT authentication
- Designed event workflows including creation, approval, registration, and real-time notifications
- Integrated analytics dashboards to track event participation and performance metrics

ATM Simulator 2025
Java, MySQL, Swing

- Developed a banking simulation system with secure login and transaction processing
- Implemented core features including deposit, withdrawal, fast cash, and PIN change
- Designed layered architecture (UI, Domain, Data) for scalability and maintainability and managed database operations using JDBC for real-time data handling

Full-Stack E-Commerce Platform 2025
React, Node.js, Express, MongoDB, Stripe API

- Built scalable platform supporting 500+ concurrent users
- Designed REST APIs and optimized queries improving response time by 25%
- Integrated secure payments using Stripe API

Technical Skills

Frontend: HTML5, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, Docker, Postman

Other: UI/UX Design, Automation, OpenAI API, AI

Achievements

- Solved 50+ DSA problems on LeetCode
- Participated in 3+ hackathons
- Microsoft Certified: Introduction to Programming Using Python
- **Class Representative (CR):** Act as liaison between students and faculty, managing communication and coordination
- **NSS Volunteer:** Participated in community service initiatives, contributing to social impact programs

- **Creative Team Member, ITSA (IT Department):** Designed posters, event creatives, and promotional materials
- Actively participated in technical and non-technical events, demonstrating strong teamwork and leadership skills
